# Nathan's Update

06/14/2016

Reading

- Tom Caldwells Thesis

- Root tutorials

    - CERN ROOT primer and slides

    - Columbia University ROOT Class

- Important MiniCLEAN documents

    - Construction and operational documents

- RAT User Guide and RAT Documentation

- HEP Computer Cluster Documentation

Getting Setup

- Installing cygwin along with the necessary packages as well as putty and emacs.
- Familiarizing myself with the HEP, and Berkeley computer clusters.
- Installing RAT for account on the Berkeley computer clusters.
- Practice using RAT.

First Histogram from RAT Simulation
