

# Nathan's Update

07/26/2016

# Underground

- Device checker from Vale certified my laptop.
- Found citric acid for pacification of connection pipe from the purification system to the condenser, but no pump.
- Opened up the charcoal trap to take out some charcoal.
  - Hope to improve cooling.
- Pacified connection pipe today.
  - Stairs work-out
- Flowing Argon and baking pipe tomorrow.

# Rat

- Writing macro for the Neutron Calibration Simulation
