Geometry Simlulaiton (Neutron Detector)

04/18/2017

1. Fixed all errors in geometry file, finally.

2. Run the simulation successfully and got a root file.

Trouble:

1. TBrowser the root file, no browser pops out.

To do:

1. Be familiar with ROOT.

2. Make histograms based on the data and figure out the answer to questions.

3. Energy of the target interaction?
