Phase II Geometry

Oliver Hitchcock

Goal

Design Phase II System Test detector geometries for use in simulations.

Plan

1. Study Phase I and LZ geometries
   a. Find reusable files
2. Understand/draw Phase II geometries
3. Translate drawings into code

Done This Week:

- Started work on a simplified geometry
- Started defining parameters within Phase2DetectorParameters.hh

To do This Week:

- Finish simplified geometry
- Run a Test Macro to see if the geometry works
- Visualizer
