

DIS 2005 in Madison, Wisconsin

Welcome to Madison!

- Wednesday, April 27 – Sunday, May 1, 2005
- Note: Pheno 2005: May 2–5, 2005

Information on web page:

- <http://www.hep.wisc.edu/dis05>

Local Organizing Committee

Wesley Smith, U. Wisconsin, Chair

Sridhara Dasu, U. Wisconsin

Tao Han, U. Wisconsin

Aimee Lefkow, U. Wisconsin ⇐ Organization

Don Reeder, U. Wisconsin

Jose Repond, Argonne

Working Group Organizers

Structure Functions & Low x

- Jianwei Qiu
- Un-Ki Yang
- Jo Cole

Diffraction & Vector Mesons:

- Valery Khoze
- Xavier Janssen
- Marta Ruspa

Electroweak & Beyond the Standard Model:

- C.-P. Yuan
- Beate Heinemann
- Alex Tapper

Hadronic Final States:

- Pavel Nadolsky
- Steve Maxfield
- Claudia Glasman

Heavy Flavors:

- Gennaro Corcella
- Andy Mehta
- Massimo Corradi

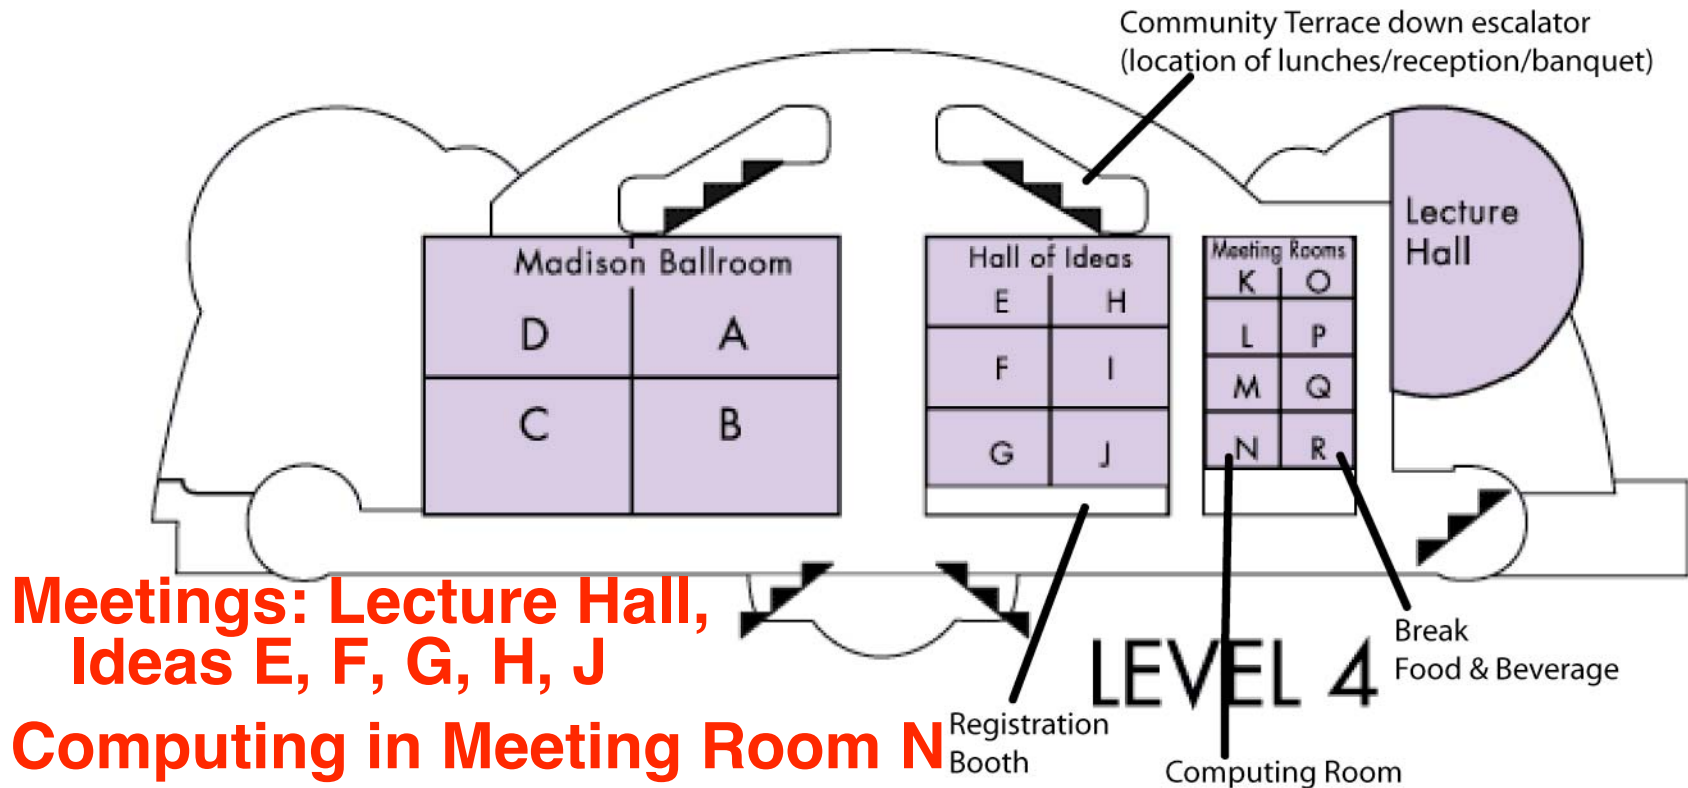

Spin Physics:

- Krishna Kumar
- Pasquale Di Nezza
- Marco Stratmann

Future of DIS:

- Uta Stoesslein
- Dave Soper

Navigating DIS 2005

**Meetings: Lecture Hall,
Ideas E, F, G, H, J**

Computing in Meeting Room N

- Printer & PCs. Wireless everywhere. Help from Steve Rader.

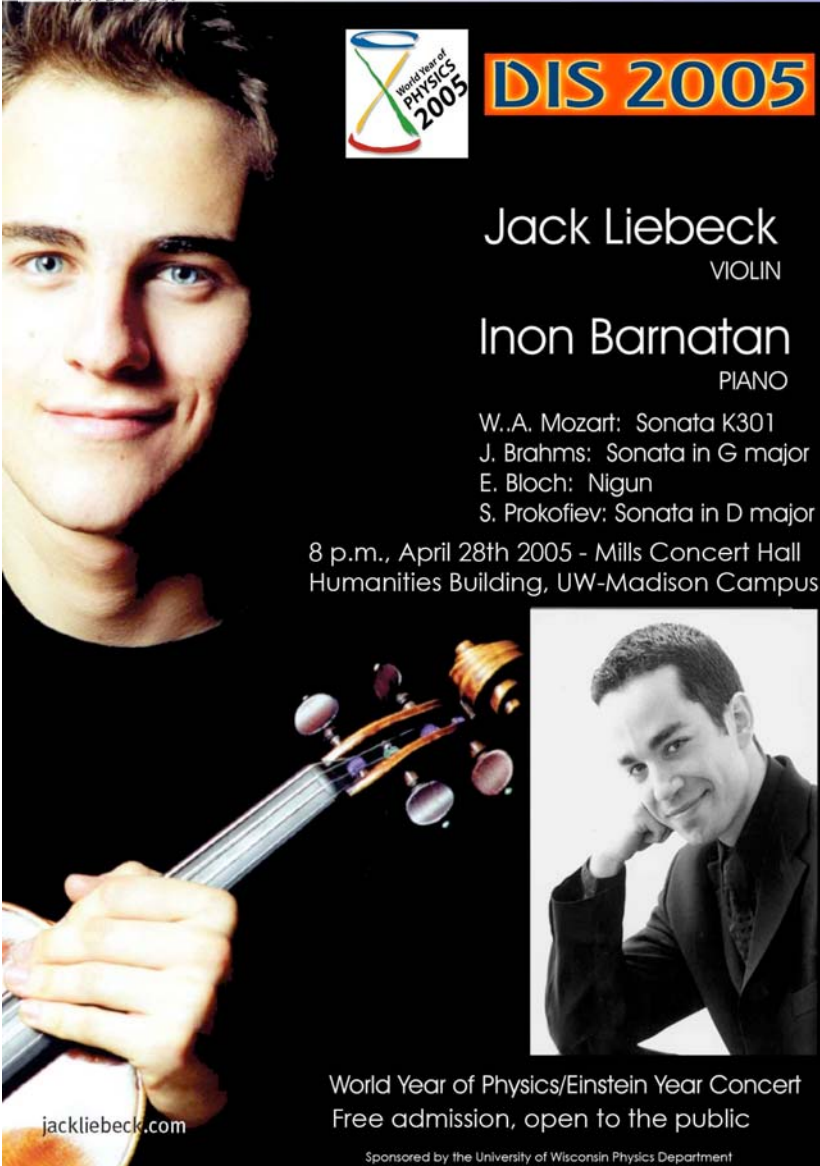

Breaks in Meeting Room R

- Please go in, get food/drink, exit & walk around Monona Terrace

Lunches/Reception/Banquet on Community Terrace

- On Level 2 (down escalator — next lower public level)

DIS 2005 Events

Jack Liebeck
VIOLIN

Inon Barnatan
PIANO

W..A. Mozart: Sonata K301
J. Brahms: Sonata in G major
E. Bloch: Nigun
S. Prokofiev: Sonata in D major

8 p.m., April 28th 2005 - Mills Concert Hall
Humanities Building, UW-Madison Campus

World Year of Physics/Einstein Year Concert
Free admission, open to the public

jackliebeck.com

Sponsored by the University of Wisconsin Physics Department

Reception:

- Wednesday 6:15 PM
- Community Terrace
(Monona Terrace Level 2)

Group Photo:

- Thursday, 12:50 PM, Roof

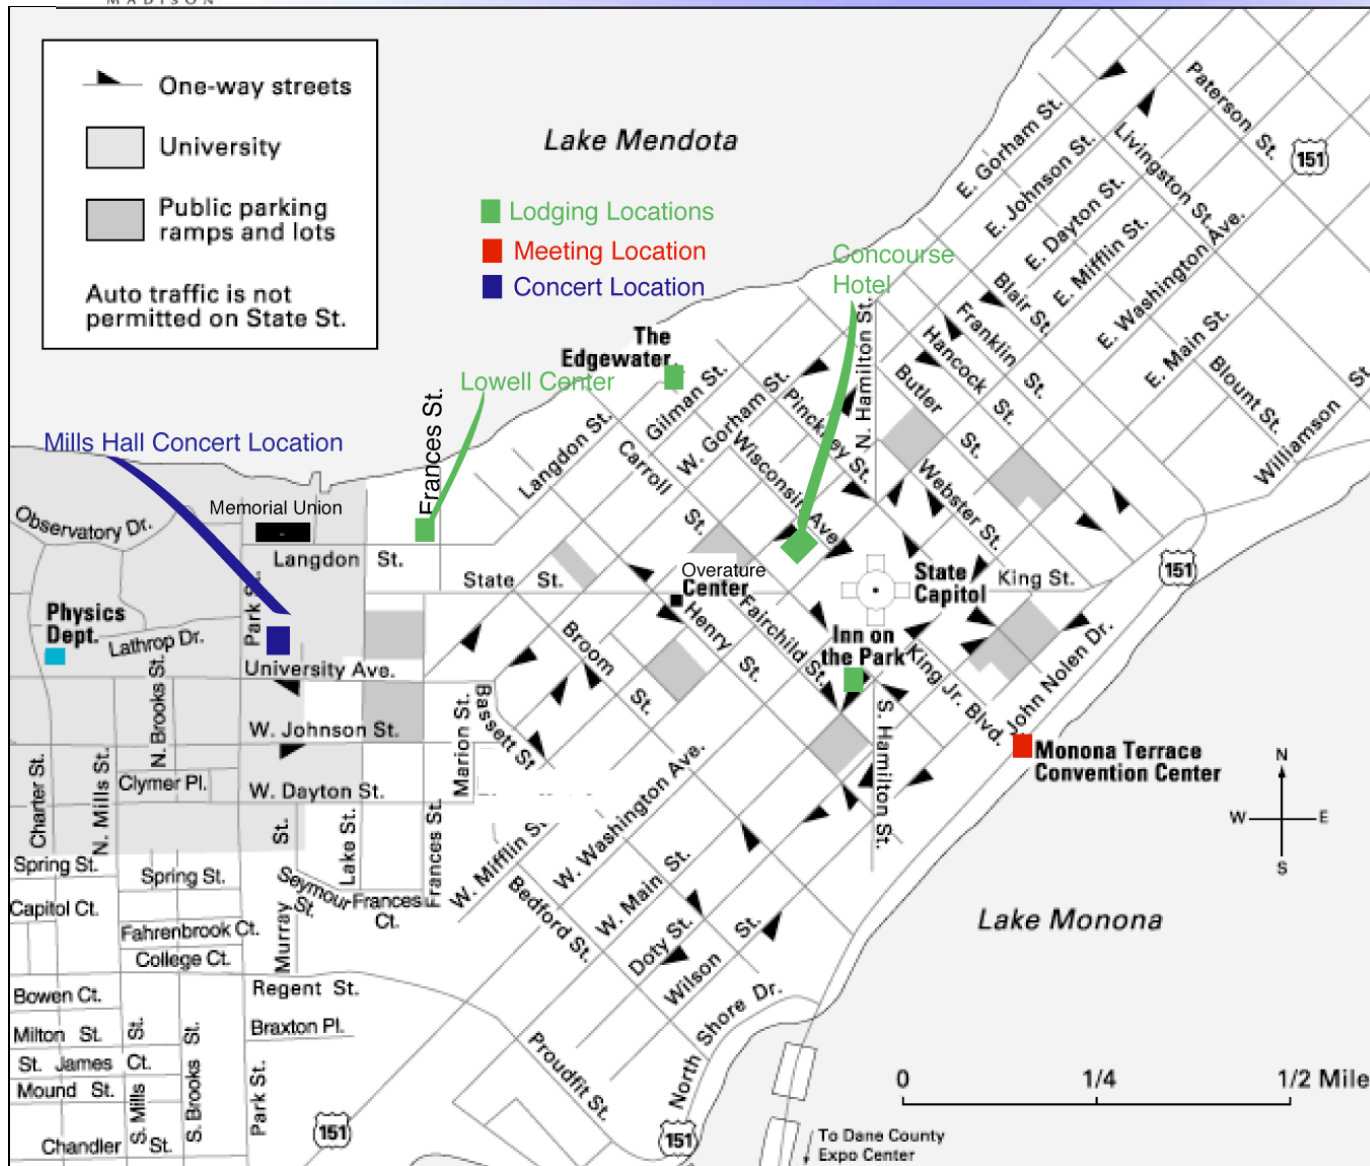

Concert:

- Thursday, 8:00 PM
- Mills Hall, Humanities Bldg,
UW-Madison Campus

Conference Dinner

- Saturday 7:00 PM
- Community Terrace
(Monona Terrace Level 2)

Navigating Madison

All events at Monona Terrace except concert on UW Campus

Saturday Morning Farmer's Market is around State Capitol

And Now....

Once again a warm welcome to Madison!

We hold DIS 2005 during an interesting moment:

- **New measurements emerging from HERA, TeVatron, SLAC, RHIC, Jefferson Lab and COMPASS**
- **New theoretical advances in QCD.**
- **New linkages between measurements made in nuclear and particle physics.**
- **About 2 years before the conclusion of the HERA – II program**

Important to assess the present experiment and theory

**Important to examine options for future experiments
using the best information from experiment & theory**

**We hope that Madison will be a conducive place for such
deliberations**

Thank you for coming!
