

# Spin Physics Working Group

## Friday, April 29, 2005

### Session 5 - Theoretical issues (Joint session w/ H - Ideas-G (9:00 AM - 10:40 AM))

time	[id] title	presenter
9:00 AM	[16] Factorization in SIDIS	F. YUAN
9:20 AM	[17] Novel Aspects of High-x Phenomena in QCD	STAN BRODSKY
9:40 AM	[18] The role of Cahn and Sivers effects in Deep Inelastic Scattering	ALEXEI PROKUDIN
10:00 AM	[19] Probing inelastic states with elastic ep scattering via QED loops	A.V. AFANASEV
