

Spin Physics Working Group

Thursday, April 28, 2005

Session 4 - Transversity/SSA (II) & Inclusive (II) - Ideas-G (4:10 PM - 5:50 PM)

time	[id] title	presenter
4:10 PM	[11] First measurement of interference fragmentation function on transversely polarized hydrogen target at HERMES	P. VAN DER NAT
4:30 PM	[12] Transversity signals in two hadron correlation at COMPASS	R. JOOSTEN
4:50 PM	[13] Latest Results on Spin Structure Functions at high-x from Jlab	J-P. CHEN
5:10 PM	[14] g1 and g2 in the meson cloud model	T. SIGNAL
5:30 PM	[15] Jlab Results on the Q ² Evolution of Moments of Spin Structure Functions	A. DEUR
