Simulations and Analysis at Colliders (II) - Pyle Center--DE335 (4:30 PM - 6:30 PM)

time	[id] title	presenter
4:30 PM	[M2] Nonlinear realization of local supersymmetry; gravitino phenomenology	TONNIS TER VELDHUIS
4:50 PM	[M8] From inclusive signatures to high scale theory?	PIYUSH KUMAR
5:10 PM	[M0] Sleuth: Search strategy for new physics at the Tevatron	GEORGIOS CHOUDALAKIS
5:30 PM	[M9] Bard: Interpreting new collider physics	BRUCE KNUTESON
5:50 PM	[M1] Unraveling the spin of the gluino at the LHC	OSCAR EBOLI
6:10 PM	[M3] Predicting signal significances at the LHC	TILMAN PLEHN
