

Phenomenology 2009 Symposium - PHENO 09

Tuesday, May 12, 2009

LHC 1 - Pyle Center, room 121 (2:00 PM - 4:00 PM)

time	[id] title	presenter
2:00 PM	[121] Color Sextet Scalars at the LHC	Dr WANG, Kai
2:15 PM	[122] Prediction of light diquarks observable at LHC from baryogenesis models	Mr DEV, Bhupal
2:30 PM	[123] QCD Corrections to Scalar Diquark Production at Hadron Colliders	Mr LEWIS, Ian
2:45 PM	[124] Heavy quarks above the top at the Tevatron	Dr ATRE, Anupama
3:00 PM	[125] Threshold resummation for production of coloured heavy particles at the LHC	Dr FALGARI, Pietro
3:15 PM	[126] Electroweak effects in b-jet and di-jet production	Dr SCHARF, Andreas
3:30 PM	[127] Constraining new physics with combined low and high energy observables	Dr JENKINS, James
3:45 PM	[128] Higgs Production and Decay from TeV Scale Black Holes at the LHC	Mr ERKOCA, Arif
