

# Phenomenology 2009 Symposium - PHENO 09

## Tuesday, May 12, 2009

**LHC 2 - Pyle Center, room 121 (4:30 PM - 7:00 PM)**

time	[id] title	presenter
4:30 PM	[160] Normalizing VV production at the LHC	Prof. MELLADO, Bruce
4:45 PM	[161] Theoretical Uncertainties in Vector Boson Cross Sections at the LHC	Prof. YOST, Scott
5:00 PM	[162] Jet angular correlation in vector-boson fusion processes at hadron colliders	Dr MAWATARI, Kentaro
5:15 PM	[163] Extracting Z' Couplings from the LHC and low-energy measurements	Dr QUACKENBUSH, Seth
5:30 PM	[164] Identifying new physics with photons at the LHC	Mr FREITAS, Ayres
5:45 PM	[165] Early SUSY searches at LHC without missing Et	Mr LESSA, Andre
6:00 PM	[166] Distinguishing between SUSY and Littlest Higgs Model using trileptons at the LHC	Dr GUPTA, Sudhir
6:15 PM	[167] Measuring the dark force at the LHC	Dr HAN, Zhenyu
