Conclusion

Conclusion

- HTC can improve research in biological sciences

Conclusion

- HTC can improve research in biological sciences
- Even simple DAGs can make a big impact on your research

Conclusion

- HTC can improve research in biological sciences
- Even simple DAGs can make a big impact on your research
- DAGs can also improve reproducibility

Conclusion

- HTC can improve research in biological sciences
- Even simple DAGs can make a big impact on your research
- DAGs can also improve reproducibility

In the last year, I have used 8.5 million HTC hours.

Conclusion

- HTC can improve research in biological sciences
- Even simple DAGs can make a big impact on your research
- DAGs can also improve reproducibility

HTC has shortened my Ph.D. by almost 1,000 years.
