

Thanks to all the speakers!

neutrino mass measurements

double beta decay

dark matter

solar neutrinos

supernova neutrinos

high-energy neutrino astronomy

search for θ_{13}

reactor and accelerator neutrino experiments

DUSEL

3.30 pm: coffee in the Physics Department, Chamberlin Hall

**4.00 pm: "Hunt for the Last Neutrino Mixing Angle"
Colloquium by M. Wascko, Imperial College London**

**UW Physics Building, Chamberlin Hall, 1150 University
Avenue**

Many thanks to

Aimee Lefkow

Teresa Sherron

Local Organizing Committee:

Baha Balantekin

Karsten Heeger

Albrecht Karle

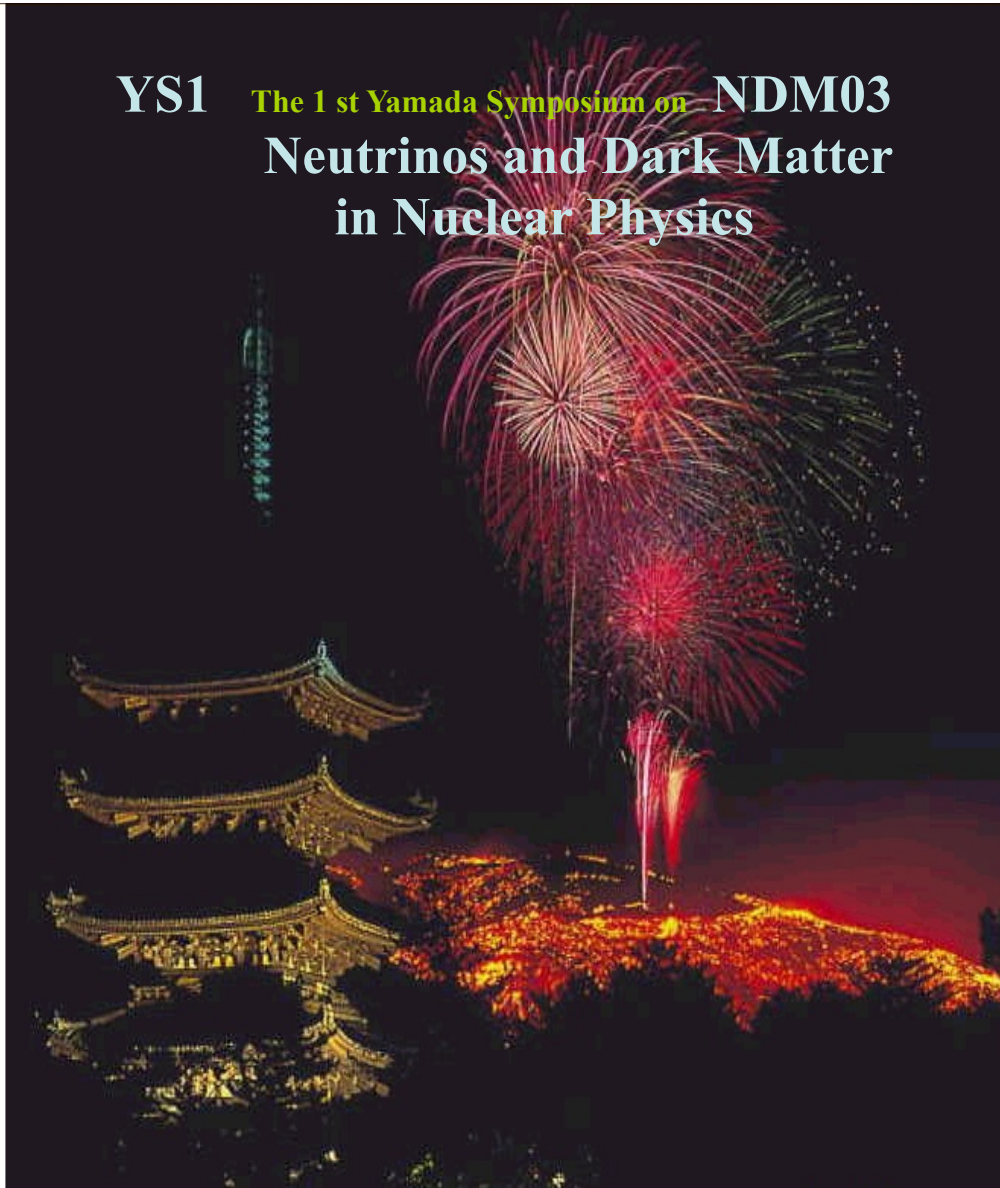

Reina Maruyama

Teresa Montaruli

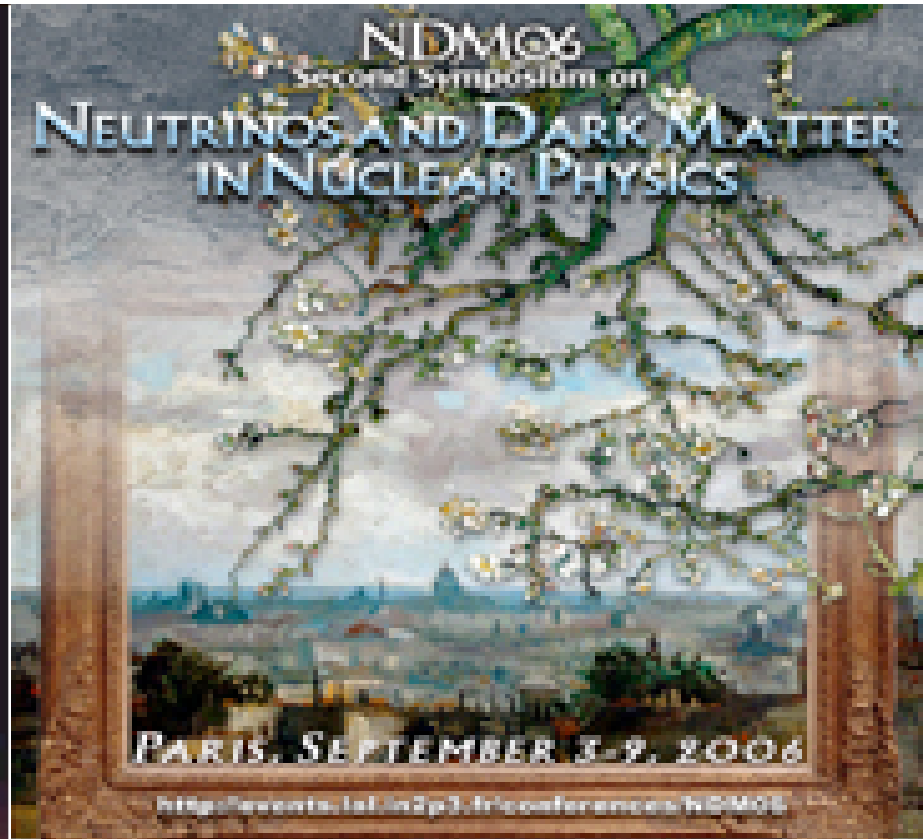

Michael Ramsey-Musolf

NDM03

YS1 The 1st Yamada Symposium on **NDM03**
Neutrinos and Dark Matter
in Nuclear Physics

NDM06

TOPICS

Neutrino mass, beta decays, double beta decays and neutrinos,
Solar neutrinos and supernova neutrinos, Neutrinos in astrophysics,
Neutrino nuclear interactions, Physics of neutrino beams,
Dark matter, dark energy and cosmology, Dark matter by nuclear scattering,
Related subjects.
