

Session Program

Dec 11 - 12, 2012

Reactor Antineutrino Spectrum and Anomaly Measurements: U.S. Planning Meeting

Physics Overview

LLNL, Livermore CA

Tue, December 11

9:10 AM

Physics Overview

Session | Location: LLNL, Livermore CA

9:10 – 9:35 AM **Potential Impact of New Measurements on Reactor Spectrum and Flux Predictions**

Speakers

Patrick Huber, Patrick Huber

9:35 – 10:00 AM **Potential Impact of New Measurements and Applied Neutrino Physics Goals**

Speaker

Nathaniel Bowden

10:00 – 10:25 AM

International context and experimental requirements for a definitive short-baseline reactor experiment

Speaker

Karsten Heeger

10:25 AM
